Testimonials

Dear Michael,

"I just wanted to let you know how amazingly useful I've found the Group Mastery training. I've spent most of the last year managing a really complex cultural and organisational change programme.

The skills I learnt from you have been sooo useful and a real contributor to the successes I've had over the year. It's been so easy to spot my champions, manage the trouble makers, work out who the cats and dogs are. When I give presentations, I can predict the effect when I use your tools and techniques.

I've managed to get all my key stakeholders on board and I would never have even attempted this job if I hadn't had the benefit of your amazing training, Michael.

You've given me such confidence and you've taught me to BREATHE!

Thank you so much. You've had a transformational effect on me.

"I have studied with Michael for 15 years and am convinced that is the reason my speaking career has been as successful as it is. He is a master at non-verbal communication and those are the skills that make the magic of a presentation – they are the process behind the content you deliver. There are many speakers who have great content but lead you into a coma after 15 minutes! There are not many that have great content delivered in a way creates magic in the room – that has people maximize their learning while they are engaged and enjoying every moment! Michael is the man to help you do that. For years I have recommended to every speaker who wants to be better to study with Michael – those few who have been smart enough to take up the idea have seen their careers transform.

MAKE SURE YOU ARE THERE – IT WILL BE THE BEST INVESTMENT YOU WILL EVER MAKE IN YOUR CAREER – IT WAS FOR ME!"
